EDUCATION

BS.C- INTEGRATED SCIENCE EDUCATION

University of Lagos

• Completed 2023

SOFTWARE DEVELOPMENT

ALX Africa

• Completed 2024

PROFILE

Passionate and detail-oriented Java developer with a strong foundation in object-oriented programming, data structures, and algorithm design. Adept at building scalable applications, troubleshooting code, and collaborating with teams to develop innovative software solutions. Eager to apply my skills in a dynamic environment and contribute to impactful projects.

PROJECT

LIBRARY MANAGEMENT SYSTEM (JAVA, MYSQL)

- Developed a desktop-based application for managing books, users, and transactions.
- Implemented CRUD operations with MySQL database.
- Used JavaFX for an interactive UI.

E-COMMERCE BACKEND API (JAVA, SPRING BOOT, POSTGRESQL

- Designed and built RESTful APIs for user authentication, product management, and order processing.
- Integrated JWT-based authentication and role-based access control.
- Used JPA and Hibernate for database interactions.

SIMPLE BANKING SYSTEM (JAVA, OOP, FILE HANDLING)

- Developed a command-line banking system with account creation, deposits, withdrawals, and transaction history.
- Used object-oriented principles for modularity and code reusability.

EXPERIENCE

IT SUPPORT

2022 - present

Fountaun Insurance Brokers Limited-Lagos, Nigeria

- Managed company website and implementation of new and improved features.
- Provide technical support to end-users, resolving hardware, software, and network-related issues.
- Install, configure, and maintain IT equipment, including workstations, printers, and peripherals.
- Monitor system performance, identify issues, and implement solutions to minimize downtime.
